The ultimate goal IIBMRT is to empower learners and help them take advantage of the enormous array of resources from the world environment in order to eliminate the current continuum of poverty and limitations.

# OUR PROGRAM

## 1. Certificate Courses

There are various kinds of certificates available: from undergraduate to graduate and advanced certificates. Certificates serve a multitude of purposes for different students: they are sometimes used to bridge the gap between different phases of academic study, or to provide additional professional training and qualifications. There are certificates in a wide variety of subjects in Arts, Humanities, Business, Biological and Life Sciences, Engineering, Technology, Natural Sciences and even more. The variety of different certificates can be overwhelming - don't let it stop you! Start your search by looking at the most popular certificates listed below.

## 2. Graduate Training Program

Undergraduate programs are more general in nature. They include general education courses in a wide variety of subjects that are not part of graduate education. Graduate programs are highly specialized and much more advanced than undergraduate programs.

## 3. Post Graduate Training Program

A postgraduate course is typically one year's duration full time or it can take two years to complete part-time. A postgraduate diploma, postgraduate degree or Master's degree offers the student an advanced level of education in their chosen area of study. The course content is designed to build on the knowledge obtained at undergraduate degree level. Often the course content is more practical in nature to better prepare the student with the skills they will need in the workplace.

## 4. Executive Training Program

Executive training programs are designed for individuals with work experience who are aspiring towards more senior positions. These programs provide instruction in a number of topics that are essential to managers and executives, such as leadership and innovation. Executive training programs often vary in length and offer flexible scheduling options that can be adjusted to meet the busy schedules of working professionals.

## 5. JOINT CERTIFICATION

The Twinning programme is a pioneering educational programme which extends the scope of educational programme by introducing the opportunities and access for higher studies through distance mode along with the traditional regular courses.

## 6. Integrated Industrial Certification

The Integrated Industrial Technology designed to prepare graduates for many different careers related to manufacturing with an emphasis on technology, critical thinking, and problem solving. Students will take courses in the basic fundamentals of industrial maintenance and move on to very advanced applications including Programmable Logic Controllers (PLCs) and Robot Operations and Conveyor Support Systems.

## 6. TÜV SÜD

TÜV SÜD is a world leader in product testing and provides highly equipped testing laboratories. When you partner with us, your business is in... Effective training paths support the growth of individuals and organisations. TÜV SÜD delivers a range of public and in-house training programmes.

## 6. Six Sigma

Six Sigma process is a disciplined, statistics based data-driven improvement methodology for eliminating defects in a product, process or service. Six Sigma process can also be identified as a measure of process and performance that strives to run the business efficiently. This is the reason why Six Sigma certification has gradually gained popularity among hundreds of companies across the globe.

Six sigma process works on 6 levels (Sigma levels). Performance of a process is measured on sigma levels ranging from 1 to 6 basis its productivity. Once the current performance of a process is measured, the goal is to continuously improve the sigma level striving towards sigma 6. Even if the level doesn't make it to sigma 6, only a point raise from sigma 4 to sigma 5 is enough to improve the business process.

Six sigma process works through the use of the following methodologies:  
DMAIC – Define, Measure, Analyse, Improve and Control  
DMADV - Define, Measure, Analyse, Design and Verify  
Attachments area

## 7. T.E.F.L Certification

A Teaching English as a Foreign Language (TEFL) certification is an internationally recognized qualification to teach English abroad and a critical component of your international teaching job application.

A Teaching English as a Foreign Language (TEFL) certification is a commonly required qualification for new and experienced teachers who want to teach English abroad.

**United States Distance Learning Association**

**Member Since: October 17, 2019**

The United States Distance Learning Association (USDLA) is a non-profit association that promotes the development and application of distance education. It was formed in 1987 and is based in Boston, Massachusetts. USDLA provides advocacy, information, networking, and opportunity for its members. Distance learning and training constituencies served include preK-12 education, higher and continuing education, and home schooling as well as business, corporate, military, government and telehealth markets.

**American Management Association**

The American Management Association is an American non-profit educational membership organization for the promotion of management, based in New York City. The association has its headquarter in New York City, and has local head-offices throughout the world

**European Association for International Education**

The **European Association for International Education (EAIE)** is the European centre for expertise, networking and resources in the internationalization of higher education. It is a non-profit, member-led organization serving individuals actively involved in the internationalization of their institutions through a combination of training, conferences, research and knowledge acquisition and sharing. The EAIE is based in Amsterdam, the Netherlands and has approximately 2500 members from 80 countries around the world, the majority of which are located in Europe.

**Gulf - Indo Chamber of Education**

GICE is a Indian and Gulf Universities Documents verifications forum to increase the credibility in employment sector and institutions

## Flexible Learning Association of New Zealand

The education system in New Zealand is a three-tier model which includes primary and intermediate schools, followed by secondary schools (high schools) and tertiary education at universities and polytechnics. The academic year in New Zealand varies between institutions, but generally runs from early February until mid-December for primary schools, late January to late November or early December for secondary schools and polytechnics, and from late February until mid-November for universities.

In 2009, the Programme for International Student Assessment (PISA), published by the Organization for Economic Co-operation and Development (OECD), ranked New Zealand 7th best at science and reading in the world, and 13th in math's. The Education Index published as part of the UN's Human Development Index consistently ranks New Zealand among the highest in the world.

## International Association of Journals and Conferences

**Membership Id: 8080222999**

**INTERNATIONAL ASSOCIATION OF JOURNALS AND CONFERENCES** is a first-of-its-kind, **global**, umbrella consortium for academic **journals, conferences**, organizations, and individuals committed to advancing excellence in all aspects of technology-related education

Through its unique from Conference-to-Journal-Publication concept, IAJC offers a rare opportunity for authors to submit papers to its globally-sponsored conferences and then be considered for journal publication in one of the organization's growing list of member journals. In this multilayered review process, IAJC helps authors prepare, improve, and find the right journals for timely publication.

## Global Online Association for Learning

Global Online Association for Learning (GOAL) is a nonprofit online learning association that represents the interest of educational institutions, teachers, students, and organizations involved in online education. We strongly support the development and application of online learning through new concepts and information and communications technology. We promote professionalism and high quality online education such that it will merit equal recognition as traditional, pre-World Wide Web approaches.

## **International Association for Six Sigma Certification**

**The International Association for Six Sigma Certification (IASSC)** is a Professional Association dedicated to growing and enhancing the standards within the Lean Six Sigma Community. IASSC is an independent third-party certification body. IASSC does not provide Lean Six Sigma related training, mentoring, coaching or consulting services. IASSC exclusively facilitates and delivers centralized universal Lean Six Sigma Certification Standards testing and Lean Six Sigma Accreditations. These are based on established, recognized and published criteria, none of which are dependent upon the use or engagement with any specific trainer(s), training provider(s), consultant(s), proprietary training content, products or software or any specific organization or company offering Lean Six Sigma or any other services.

---

Public Health Institutes of the World

**IANPHI**

## **International Association of National Public Health Institute**

The International Association of National Public Health Institutes links and strengthens the government agencies responsible for public health. IANPHI improves the world's health by leveraging the experience and expertise of its member institutes to build robust public health systems.

---

## **Open Education Consortium**

The Open Education Consortium (OEC) is a non-profit, global, members-based network of open education institutions and organizations. OEC represents its members and provides advocacy and leadership around advancement of open education globally. OEC works with its members to build capacity to find, reuse, create and share Open Educational Resources (OER), develop open policy, create sustainable open education models, and enable international collaboration and innovation. OEC annually coordinates and hosts Open Education Week, the Open Education Global conference, and Open Education Awards for Excellence. Collectively these efforts aim to bring high quality, inclusive education to all learners around the world.

---

# SGPA & CGPA FORMULA

$$\text{SGPA} = \frac{\text{Total Earned Credits} \times \text{Total Grade Point}}{\text{Total Earned Credits}}$$

First Semester	Paper Code	Grade	Paper Credit	Grade Point
	101	B+	4	8
	102	B	4	7
	103	A	4	9
	104	B	4	7
	105	B	4	7
	<b>TOTAL</b>		<b>20</b>	<b>38</b>

$$\text{SGPA} = \frac{\text{Paper 1 Credit} \times \text{Paper 1 Grade Point} + \text{Paper 2 Credit} \times \text{Paper 2 Grade Point} + \text{Paper 3 Credit} \times \text{Paper 3 Grade Point} + \text{Paper 4 Credit} \times \text{Paper 4 Grade Point}}{\text{Total Earned Credit}}$$

$$\text{SGPA} = \frac{4 \times 8 + 4 \times 7 + 4 \times 9 + 4 \times 7 + 4 \times 7}{20} = \frac{152}{20} = 7.6$$

SGPA is calculate for Per Year/Per Semester Mark sheet

Assume that

1st Sem SGPA	Sem-1 Total Earn Credit	2nd Sem SGPA	Sem-2 Total Earn Credit	3rd Sem SGPA	Sem-3 Total Earn Credit	4th Sem SGPA	Sem-4 Total Earn Credit	5th Sem SGPA	Sem-5 Total Earn Credit	6th Sem SGPA	Sem-6 Total Earn Credit
7.6	20	5.6	30	8.1	32	7.1	30	6.5	28	3.1	30

SEMESTER	SGPA	TOTAL EARN CREDIT	SGPA X TOTAL EARNED CREDIT
SEM 1	7.6	20	7.6 X 20 = 152
SEM 2	5.6	30	5.6 X 30 = 168
SEM 3	8.1	32	8.1 X 32 = 259.2
SEM 4	7.1	30	7.1 X 30 = 213
SEM 5	6.5	28	6.5 X 28 = 182
SEM 5	3.1	30	3.1 X 30 = 93
<b>TOTAL</b>		<b>170</b>	<b>1067.2</b>

$$\text{CGPA} = \frac{\text{Total Earned Credits} \times \text{SGPA}}{\text{Total Earned Credits}}$$

$$\text{CGPA} = \frac{7.6 \times 20 + 5.6 \times 30 + 8.1 \times 32 + 7.1 \times 30 + 6.5 \times 28 + 3.1 \times 30}{170}$$

$$\text{CGPA} = \frac{1067.2}{170} = 6.27$$

## STEPS TO ENROLL INTO AN ONLINE COURSE OF THE INSTITUTE

Login to [www.iibmrt.com](http://www.iibmrt.com) and click on Apply now button on the home page. Fill the admission form with all the required details, scan the documents and upload them. Please note down the system generated Reference Number after submitting application for all further references and communication.

Make Payment of fee either through Online Payment or with a DD as specified above, fill in the details and submit. Please do not forget to Save/Print Fee Receipt. For the details of the DD, please refer to the Payment schedule section of this website. Please send the following documents in hard copy to the below mentioned address:

Take two prints of the application form and sign them

Send 1 hardcopy (2 hardcopies for international applicants) of each of the documents, attested by a Gazetted officer/ Notary

3 Passport size photographs

Demand Draft (in case of DD Payment) / Printed copy of the receipt in case of Online payment

## CHECKLIST OF DOCUMENTS FOR APPLYING ONLINE

-Proof of Qualification: Attested Xerox copies of Original Degree / Provisional Pass Certificate and Marks Statement of Qualifying Examination passed

-3 passport size photographs

-Attested Xerox copy of the marriage certificate (if applicable) indicating change in name.

-Proof of Date of Birth: Scanned copy of any one of the document which mentions the Date of Birth of the candidate

-10th Std. Mark sheet

-10th School Leaving Certificate

-10th Transfer Certificate / Character Certificate

-Copy of the passport

-Work Experience Certificate (if any)

-You will need to get photocopies of the above mentioned documents attested by notary / gazetted officer of the Government.

Address For Dispatch

-Please send the envelope containing the documents mentioned above by Registered Post Acknowledgement Due Only. Please write Reference Number of your Application on the backside of Photograph and also super scribe envelope with the same.

## MODE OF PAYMENT

During admission, along with the application form and required documents, the student will have to submit the requisite fees. The fees payable includes one-time fees and the fees payable for the first year. The University provides two modes of payment of fees by the student.

## OPTIONS FOR MAKING THE PAYMENT

**ONLINE PAYMENT:** IIBMRT Online Programs has also facilitated the medium of Online payments for its students. Using this option, the students can pay their fees through credit card/debit card/net banking from the comfort of their homes. After filling up the online admission form, the student shall be guided to the online fee payment page of the Institute. **FEES FOR SECOND YEAR**

**STANDING INSTRUCTIONS:** Students paying via credit card through online mode, can opt for standing instructions on their credit card. The requisite fees shall be debited on the same credit card of the student on the due date. Please ensure that you select the Standing Instruction option while paying through your credit card.

**ELECTRONIC CLEARING SYSTEM (ECS):** Students paying through debit card/net banking/demand draft shall be required to opt for this. Please download the ECS option forms from the website of the University (check your mailbox too), sign them at the respective places and dispatch them along with the admission form to the Institute.

**Students can enroll at anytime from anywhere. There is also flexibility in pacing the course. All of the courses are distance learning courses offered online through our e.Campus & study center . iibmrt online and part time courses operate on an open enrollment policy; there are no enrollment deadlines. This means the distance learning course starts for you on the day your registration is accepted. Registrations are processed and accepted on most business days**

**Examinations will be conducted four times a year in February, May, August & November on Saturdays and Sundays. There will be two examinations of three-hour duration in two sessions on a day. The examinations will be in both online mode and Centre-based written mode.**

The Examination Procedure consists of two different Methodologies:

- 1) Study Centre
- 2) Online (Subjective/Objective)

Study Centre method consists of complete theoretical Question Answer based examination. Each semester will have 10 days for completion. Within these 10 days the examination will be held at the respective study centre where the examination period will be for 3 hours per subject. Students will be allowed to take up examinations as they wish within these 10 days with a day break or with no break.

Online Examination will consist of both Subjective and Objective type Questions. Students can submit their answers online through a proper submission id assigned to them. The questions will be situation based so as to get a more vibrant practical knowledge and practical thinking. Each subject will be of 100 marks wherein the passing marks will be 50%. Students will be assigned different grades as per the outcome of their result. Students can collect their Certificates & Mark sheets from the respective STUDY CENTER of International Institute of Business Management & Research Technology.

## **NOTE:**

**Multiple choices based objective Question Answer based examination by Optical Mark Reading (OMR) sheets**

## **Examination Fee**

An examination fee of INR.600/- for each paper has to be remitted by Online in IIMBRT Account

## **Grading of Examination**

The Grades for Students will be given as follows:-

- A + 80% & Above
- A 65% - 79%
- B + 60% - 64%
- B 50% - 59%

## **Examination Results**

Examination results will be published in 45 days after the receipt of complete set of answer papers and respective assignments/ case study project..

## **IMPORTANT NOTICE**

Students are requested to submit all examination papers of a particular semester together only, failing of which a Mark-Sheet with "Failed" status will be issued.

## 1. Flexibility

Students have the freedom to juggle their careers and school because they aren't tied down to a fixed schedule. In a traditional classroom setting, class meeting times are set, and the student has no power over this, forcing them to work their schedules around these dates. Most people who choose online learning tend to have other commitments, and prefer this mode of learning as it gives them power over how they will delegate their time towards their different projects.

## 2. Reduced Costs

Online education can cost less due to a variety of reasons. For example, there is no cost for commuting. Assorted costs that are related to transport, such as fuel, parking, car maintenance, and public transportation costs don't affect the online student.

## 3. Networking Opportunities

Online education also provides students with the chance to network with peers across nations or even different continents. This often leads to other opportunities in terms of collaboration with other individuals in the implementation of a project. At the same time, it makes them culturally sensitive and able to fit into other environments easily given their exposure to other cultures.

## 4. Documentation

All the information that you will need will be safely stored in an online database. This includes things like live discussion documents, training materials and emails. This means that if there's ever anything that needs to be clarified, the student will be able to access these documents fast, saving valuable time. This is especially useful for individuals that need to carry out research for a project and submit their findings to a Panel.

## 5. Increased Instructor - Student Time

Students in traditional classrooms may not get the personalized attention they need to have concepts clarified. Although class sizes are small at IIBMRT, most colleges have classes of students that number in the hundreds. This is not a problem for this type of education because online guided discussions and personal talk time with their professors and lecturers is a hallmark of online classes. This increases the chances of a student performing well due to the time their instructors give them. This also enhances their problem-solving and communication skills, as well as knowing how to defend their arguments to superiors if needed.

## 6. Access to Expertise

An online college education might give students access to specialized degree courses that may not be available in an easily accessible or local institution of learning. For example, at IIBMRT you can pursue a degree in Marketing or a certificate in C++ Programming without having to live near the institution. Online classes allow the sharing of expertise that helps more people have access to education that is not readily available in certain geographic locations.

This type of education has grown over the last few years and has experienced mainstream acceptance. With an online class, you get to control your learning environment, which ultimately helps you develop a deeper understanding of your degree course. New models of learning are always springing up in the market, providing students with varied opportunities to fashion their education into something that fits them, not the other way round. It also provides individuals an opportunity to finish a degree they might have started and were unable to continue with for one reason or another. The future of online degree education looks promising, and opens up education to a larger section of the population than ever before.

## WHY US

1. Online learning, with audio-visual lectures, assessments in the form of chapter end quizzes & mock tests.
2. Learning at your own convenience without compromise the current job schedule or any other commitment.
3. Accessibility to the content without the need of internet.
4. Prompt academic support by qualified departmental heads.
5. Recognition of prior learning scheme.
6. Working experience credit transfer scheme.
7. World renowned online education system & network.
8. Internationally accredited Degree & Diploma.
9. Affordable Education with industries based curriculum.
10. Fast track on-demand examination facility available.
